### Eligibility

All registered UCLA students are eligible for same day clinical consultation, help with coordination of mental health care and support, as well as referral and treatment recommendations, regardless of insurance plan or current residence.

**Students In-State:** Students residing in California are eligible for a triage assessment, short term individual therapy, and group therapy services at CAPS, when clinically appropriate. Students with UCSHIP are also eligible for psychiatry services when clinically appropriate.

**Out of State Students:** Due to state law and California Board of Psychology and Board of Behavioral Services restrictions, students outside of California are eligible only for clinical coordination and referral to a provider in their local area based on student insurance plans.

All registered and eligible students can receive up to 4 sessions of individual psychotherapy per academic year with 4 additional sessions for those with UCSHIP or as clinically indicated. Students needing longer treatment will receive assistance with connecting to their primary insurance provider and additional case management as needed.

### Confidentiality

Our services are confidential, meaning that we will not disclose information about your treatment to anyone who is not directly involved in your care without your written permission.

### Groups Offered Through Telehealth

Please be advised that most Summer quarter groups at CAPS will be offered through a Zoom telehealth platform that meets strict HIPAA privacy guidelines. A limited number of groups may be available in person – please ask the group leader for further information.
